Wilder Visions: Re-constructing Nature

Investigating Tree Archaeology

**At Sheffield Hallam University
 16th and 17th May 2018**

With the European Society of Environmental History

Visit our website: www.ukconet.org for further information
 The South Yorkshire EcoNet

SYBRG (UKeconet) & partners are organising a 2-day conference on the theme of 'Tree Archaeology' looking at the archaeology and heritage at the core of understanding treescapes. This multi-disciplinary event will link the managed woodland or individual tree to their processing and utilisation in historic buildings, other structures and processes. The event will bring together veteran tree specialists, dendrochronologists, archaeologists, vernacular building architects and technologists, ecologists and woodland historians to discuss the history and technology of woodland management, processes and products. It will look at the various aspects of tree and woodland archaeology which extends from the hedgerow/ wood-pasture/ wood [process] to final destination [product] and how these have changed over centuries. Five main themes will be covered:

1. Dendro-research
 - a. In trees/ woodland
 - b. In built structures
2. Paleo-research
 - a. Botanical
 - b. Entomological
3. Landscape and Historical Landscape Interpretation
4. Process and Utilization of Timber and Wood
 - a. Archaeological and Historical Aspects
 - b. Traditional and Modern Businesses
5. Cultural Modification: Tree Structures and Functions

We will consider issues around the legacy of veteran trees and the evidence of past management and technologies that exist in the transformed products, some of which are still found today. This event will focus mostly on the UK experience.

We welcome displays and posters from local community heritage groups as well as from regional, national and international bodies. We also welcome posters from early-career researchers as well as the more established. Please contact christine@hallamec.plus.com to discuss your ideas in the first instance as space is limited.

The first day (16th May) starts mid-morning with presentations through the day. This will be followed by an early evening visit to two nearby sites: Gleadless Valley woodlands and Bishop's House Museum linking historic woodland processes and management with products (a Tudor timber-framed house). The following day will be a mixture of plenary and parallel sessions with poster presentations and displays.

Speakers include: Keith Alexander, Suzi Richer, Rob Jarman, Cathy Tyers, Chris Dobbs, Della Hooke, Ted Green, Ian Rotherham, Stuart Wrathmell, Joe Thompson and Coralie Mills.

Further information and details of the programme will be available on the events page of our website www.ukeconet.org (follow the link from the front page of the website).

This is one of the events in our programme of 'Wilder Visions- re-constructing nature for the 21st century' series running over the next 2 years to a landmark conference in 2020.

We are also planning a 3-day event in September 2019 which will have a broader remit developing the main themes from this year with presentations from other European countries and elsewhere with different and/ or more recent traditions of management, production and process in woodlands. It will also include a living archaeology theme. Further contributions from the UK will of course still be welcome and the conference will include poster presentations and displays, a site visit and living archaeology display.

Cancellation fees: Full fee payable if cancellation is within 2 weeks of the event; 50% payable if within 3 weeks; 25% payable if cancellation within 4 weeks; over 4 weeks – full fee will be refunded minus a small administration charge.

Booking Forms and all enquiries to:

Conference Team, BaLHRI / BRG, Venture House, 103 Arundel Street, Sheffield, S1 2NT, UK

Tel: 0114 272 4227 - Email: info@hallamec.plus.com

Cheques should be made payable to: **HEC Associates**.

Businesses and other organisations may supply an official purchase order and we will invoice.

We can provide information on locally available accommodation on request. Posters and other displays, materials to hand out, advertising and inserts in delegate packs all welcomed by prior arrangement. Further papers, posters, sponsorship or other support welcome!
